## PROFESSIONAL

### our products: and the winner is...

It's no secret that hi-definition airbrushing make-up is the clear winner with professional make-up artists.

Catwalk, stage and screen, bridal shots, location events, front covers...it gives skin that flawless finish and beautiful, healthy glow. What's more, it reduces skin imperfections and can stay perfect for hours.

What's the secret of our success? These are just some of the reasons:

Our range contains unique, superflexible, silicone based make-up to provide artists with a fully intermixable range of high definition products to meet their demanding requirements.

Our products are able to withstand humidity and heat, and move with the skin. They

are smudge resistant, and water resistant when dry. This ensures the ultimate in performance and durability even under the most demanding of conditions.

Our comprehensive selection of tried and trusted products allows you to work at your professional best, to create stunning flawless skin and enhance natural beauty in the most effective way.

You could say we put the beauty secrets of the stars in your hands.

Our Professional HD silicone-based make-up range includes:

1. Foundations
2. Highlighters & Shimmers
3. Adjusters & Correctors
4. Blushers
5. Brows

# our sunless tanning: your perfect solution

There's nothing quite like a great looking tan to make you feel good. And there's nothing quite like Mistair's sunless tanning products and equipment to help you achieve that natural golden brown sun-kissed look.

Our revolutionary non-stick, fast drying tanning solution incorporates premium cosmetic bronzer for an effortless natural tan.

It also contains the very latest paraben-free tanning technology with optimum levels of DHA for various skin types, to enable long-term

golden bronzing without those telltale 'orange' tones.

## No streaking allowed

What's more, Mistair's unique formulation eliminates streaking, and together with additional bronzer erythulose for prolonging the life of your tan, it ensures an even, effective spray application designed to reduce overspray. Unlike other tanning brands, it smells good too.

So for flawless sunless tanning every time, the perfect solution has to be Mistair.

BODY ART

## body art: no limits

Create an amazing body of work with our incredibly resilient Isopropyl alcohol based paint in an awesome range of temporary body art colours. In fact, the creative possibilities are as unlimited as your imagination.

The bold colours are easily mixed to create every imaginable shade and design -from small single-colour works to intricate multicoloured, three-dimensional effects. Dried almost instantly with a setting powder to a matte sheen that offers run, smudge and water-resistant finish, they can be airbrushed directly onto the skin using laser-cut stencils or freehand. In fact, this paint is so durable, designs can last up to 5 days.

You can add accessories to your body art such as self-adhesive crystals, (also available from Mistair) to enhance your body art designs.

- Available in 10 colours
- Vast portfolio of laser cut stencils
- Alcohol based product, so avoid eye areas.
- Remove with an alcohol-based cleanser

## Aqua Body Paint

Creating a stir on the body painting scene, our mistFX™ range of water based body & face paints offers professional body artists exciting new designs possibilities.

They can be applied using any method of application - Sponge, Brush or Airbrush, without compromising on levels of coverage and brightness of colour

Totally unique, these highly versatile and durable paints have an incredibly high pigment concentration, producing colours that are true, strong and explosive. They allow the professional body artist endless creative potential in bringing art to life with the most stunning effect.

- Suitable for use on all areas of face & body.
- Smudge & transfer resistant when dry.
- 24 fully intermixable colours – mixture of matte & pearlescent.
- Pre-formulated for airbrush use.

“I believe that mistFX™ aqua body paints are one of the most exciting developments to happen within the body painting industry for several years!”

# airlites<sup>TM</sup> temporary hair colour

It's the last word in temporary hair colouring systems.

Airlites<sup>TM</sup> from Mistair is the new instant and accurate airbrush colouring system that lets your hair make a fashion statement in seconds.

Choose from the exclusive range of chic designs, natural shades and traffic stopping colours to create the look you want. Then simply wash out with shampoo leaving no telltale residue.

So why simply highlight when you can make headlines with Airlites!

- Clean and simple to use
- Suitable for use on bleached hair
- UNLIMITED colour palette
- Extensive stencil range

"We took on Mistair because we knew it would be a great new tool for all aspects of hairdressing within our salons. It is a fantastic way to introduce our colour-phobic clients to the idea of something new by providing us with means to create subtle highlights without the commitment. It also brings out the more adventurous side in others by creating a temporary flash or two of crazy colour which is all the rage amongst the younger generation at the moment. Our artistic team pride themselves on being very creative and have found Mistair to be invaluable during the fast paced life of photo shoots allowing them a quick and easy way to change looks, also being able to stencil patterns on to hair gives them a whole new platform on which to perform."

HAIR ART

## nail art: get the edge

**Mistair takes nail art to the very edge of possibilities and puts top salon success at your fingertips.**

Developed by some of the best nail artists in the world, our stunning range of colours and effects, paints, stencils, and equipment ensures an enduring professional finish every time. Using airbrush nail art techniques you can create sharper, more intricate and current styles than using a traditional, hand-applied nail art pen.

Application is much quicker too, enabling you to increase your client turnover.

Our extensive airbrush colour range can be mixed to create a truly unlimited colour palette, including:

- transparent
- opaque
- metallic
- sheer
- holographic colours.

Products are available as individual items or as complete packages.
